The Fairview Heights State School P&C Association would like to extend our sincere thanks to our school community - students, parents and staff for supporting our activities during the 2012 school year. The operation of a successful P&C Association is critical in State School environments. 2012 was again a very successful year in terms of support that we have been able to provide to our school. This was only possible through the contributions of our parents and families.

To our graduating Year 7 students and other students and families leaving Fairview this year, we extend our **Best Wishes for a Happy and Successful Future**.

To everyone in our community, we wish you a Happy and Safe Christmas holiday period.

We look forward to working with our school community again in 2013.
